Position: Welder Fabricator; Permanent Position

Contracts Engineering Ltd is a privately owned precision engineering manufacturer based in Sittingbourne, Kent, UK. We operate a 16-hour working day out of a dedicated 9,000 sq. ft. facility, employing over 30 highly skilled employees. We have provided high quality, cost effective precision subcontract manufacturing services to our customers since 1989. We manufacture sheet metal and related products for a broad mix of customers in the consumer, general industrial, heating / ventilation and retail shop fitting industries. Our customers are based throughout the UK, while several are located in other parts of Europe.
